Fronius International GmbH

Re: To confirm that the certificate validity has been extended for a period of up to six months from the expiry date.

To whom it may concern

I am writing regarding your request for the certificate renewal assessment to be postponed, based on IAF ID3: 2011 Management of Extraordinary Events or Circumstances Affecting ABs, CBs, and Certified Organizations).

Based on the information available from your organization's management system, we have determined that your management system certification validity can be extended for a maximum of six months.

However, as soon as the effects of Covid-19 have subsided, it will be necessary to undertake a certificate renewal assessment as soon as possible. If the recertification is successfully completed during the six-month extension period, an updated certificate will be issued.

The date of issuance of the new certificate will be the date of completion of our technical review, which will be conducted after the completion of the renewal assessment. The expiry date will be three years from the expiry date of the current certificate.

It should be noted that IAF ID3 requirements are that if the renewal assessment (including technical review) is not completed during the extension validity period of 6 months, the certificate will be suspended, and an assessment based on the initial assessment duration will be required to reinstate the certificate.

Organisation name: Fronius International GmbH
Address: Froniusstraße 1, 4643 Pettenbach, Österreich
Client No.: VNA00000063

Assessment standard: ISO 9001: 2015
Scope of approval: Development, production, sale and after-sales service for welding systems, inverters, energy storage and management solutions, and battery charging systems. Management and administration.
Approval Number: 00018945
Expire date of current certificate: 12 September 2020
End of extension validity period: 30 December 2020
