

FRONIUS SOLAR.TV

/ Free online service to display PV system values

/ The free online service Fronius Solar.TV enables numerous PV system values to be transmitted and displayed clearly in a promotionally effective way in public spaces. This includes information, such as system yield, CO₂ saving and earnings through energy fed into the grid.

/ Fronius Solar.TV enables system data to be output in a target-group specific format on a conventional display with an internet connection. A series of well laid out diagrams provides a quick overview of the PV system.

/ Data is visualised through a selection of views. Your own system images can be added, and the speed and type of animation can be adjusted as required. The entire package is intuitive and very user-friendly.

/ The online service can be accessed easily and free of charge via www.fronius.com/SolarTV.

/ Actual system values clearly presented – via Live view

/ Yields, CO₂ saving or earnings: Bar charts provide a quick overview

—— Power path

* The Fronius Datamanager is integrated into the Fronius Galvo, Fronius Symo and Fronius Symo Hybrid inverters as standard.

/ As Fronius Solar.TV accesses data from Fronius Solar.web, visualisation of the data requires a Fronius Solar.web account. The Datamanager function must be installed in the inverter (integrated as standard in the Fronius Galvo, Fronius Symo and Fronius Symo Hybrid inverters). Retroactive installation of a Fronius Datamanager or Fronius Datamanager Box can be carried out at any time.

SYSTEM REQUIREMENTS:

/ Computer (e.g. Mini-PC-Stick with HDMI as well): Up-to-date internet browser that supports HTML 5 (e.g. Microsoft Internet Explorer 9, Google Chrome 18 or Mozilla Firefox 11 or higher)

/ Smart TV: Up-to-date internet browser that supports HTML 5 (incl. Canvas: Canvas Element, 2D Context, Storage: Local Storage, JavaScript-Engine)

/ Perfect Welding / Solar Energy / Perfect Charging

WE HAVE THREE DIVISIONS AND ONE PASSION: SHIFTING THE LIMITS OF POSSIBILITY.

/ Whether welding technology, photovoltaics or battery charging technology – our goal is clearly defined: to be the innovation leader. With around 3,700 employees worldwide, we shift the limits of what's possible - our record of over 800 granted patents is testimony to this. While others progress step by step, we innovate in leaps and bounds. Just as we've always done. The responsible use of our resources forms the basis of our corporate policy.
