

MARIA GUADALUPE PITA REZA, ACAPULCO, GUERRERO.

/ House

/ Pollution represents a problem that should concern us all, Acapulco is in a privileged place where you can make the most of solar energy and what better than to take advantage of it to create clean energies thus contributing to the care of our planet, global warming has caused deaths of different species for that reason the concern to help our nature.

/ That in Acapulco, users are going to switch to the generation of clean energies, represents an advance for the culture n benefit of our planet, because it means that the population is really worried and is in the best disposition to contribute in the care of the environment.

INSTALLATION DATA	
Size of installation (kWp)	8 kWp
Module type and area	Interconnection
Inverter	1 Fronius de 8.2-1 8200W
Commisioned	April 26th, 2018
Annual yield	14016
CO2 saved/ year	-
